Dr. Jana Fischer

Geneva, May 31, 2024

NAVIGNOSTICS AG
Tödistrasse 46a
8810 Horgen

Job Application for a Data Scientist position at Navignostics AG:

Dear Dr. Jana Fischer,

Driven by a strong passion for data in the health sector and a solid background in statistical methods within the in-vitro diagnostic sector, I am dedicated to leveraging these tools to comprehend biological data. In August 2022, I resigned from my previous position for family reasons, choosing to follow my wife to Switzerland. My former employer was very satisfied with my performance. Currently, I am actively seeking new opportunities while continuing to train, participate in programming associations, and work part-time.

Thank you for considering my application. I look forward to discussing how I can contribute to your team. Please feel free to contact me.

Sincerely,

Andrés Acuña
